SECTION A - SUPPLEMENTAL INFORMATION

1. This amendment is being issued to provide a response to the technical questions asked below concerning Attachment 15, "Maintenance Requirement List (MRL)" incorporated via solicitation amendment 0001.

1. What are the number of end items used to compute the replacement factors and;

2. What impact does the list has on the mandatory and non-mandatory replacement lists shown in the Depot Maintenance Work Requirement (DMWR).

2. The following is the response that was received from the Engineer in respects to the questions above.

The column labeled End Item Parts Relationship (EIPR) 72 Depot Overhaul Factors (DOF) of the MRL depicts the average quantity of repair parts required to support a repair program for a quantity of 100 each Dampener Assemblies. The actual quantity of repair parts could be more or less than the MRL numbers. The MRL incorporated via amendment 0001 may not reflect the latest mandatory (100%) replacement parts list. However, all mandatory replacement parts lists are currently being updated. Therefore, the DMWR 1-1615-286 should be used as the only reference for the latest mandatory replacement part list.

3. As a result of this issue the closing date for Solicitation W58RGZ-04-R-0511 is being extended from October 12, 2004, 3:00 p.m. C.S.T., until October 27, 2004, 3:00 p.m. C.S.T.
